

**CITY DEVELOPMENTS LIMITED**

## **CDL's Savannah CondoPark Awaits One Lucky Caller**

March 27, 2003

Donors taking part in the annual NKF Charity Draw stand to win a Savannah CondoPark 3-bedroom condominium unit. For the ninth consecutive year, City Developments Limited (CDL) is offering an apartment from one of its latest residential projects as the top prize in the charity event.

A supporter of the charity draw since 1995, CDL has consistently contributed properties from its residential projects to help drive fundraising efforts during the draw. No stranger to charitable causes, CDL hopes their contribution of an apartment will once again help to entice donors to call in and donate, as in previous years.

Says Mr Kwek Leng Joo, Managing Director, CDL, "It is heartening to note that our condominiums have encouraged many callers to donate to a worthy cause over the past 9 years and in turn help make a difference to the lives of kidney patients and their families.."

CDL is committed to sharing the benefits of its success with the less fortunate in the community and its contribution covers a comprehensive range of social responsibility programmes including charity, the arts, education, sports & youth development and the environment. CDL also has a staff volunteer club, City Sunshine Club, to extend a helping hand to the elderly and underprivileged children.

### About Savannah CondoPark

Savannah Park Condominium is a 99-year leasehold development located in Simei Street 1. Staged in an Indiana Jones/ King Solomon's Mine-type setting, Savannah Park Condominium is a safari-themed condominium comprising two, three and four bedroom apartments, as well as penthouses. The first of its kind in Singapore, the CondoPark will have one of the most elaborate landscaping themes ever produced here and is packed with adventure attractions such as Fog Slider, Kingdom Gate, Elephant Plaza, The Waterfall, and even a 2-lane bowling alley. The Savannah Park Condominium is also CDL's new generation eco-home with eco-friendly innovations within each home as well as the common areas of the development.
