### **BUSINESS REVIEW AND PROSPECTS**

The Group recorded a net profit attributable to the equity shareholders of the Company for the three months ended 31 March 2010 of HK\$11.9 million as compared with a net loss of HK\$12.8 million reported in the previous corresponding period.

For the period under review, the profit can be attributed mainly to the unrealised profit of HK\$26.8 million as a result of the revaluation of the Group's trading securities to fair value as at 31 March 2010. However, the unrealised gain was negatively affected by the net realised and unrealised translation exchange loss of HK\$11.5 million arising mainly from the Sterling Pound denominated trading security and cash deposit. The total net realised and unrealised gains of HK\$15.3 million compare favourably to the total net realised and unrealised losses of HK\$16.6 million reported in the previous corresponding period.

The Group recorded lower revenue from its continuing operations of HK\$7.7 million for the period under review as compared with HK\$16.5 million in the previous corresponding period. This is mainly due to the revenue of HK\$6.2 million from the sale of a remaining residential property in Singapore in the previous corresponding period.

The Group's hospitality related services reported lower revenue and an operating loss for the period under review. The decline in the managed hotels' operating results as well as a reduction in the number of managed hotels in its portfolio adversely affected the management fees recorded by Richfield Hospitality, Inc. ("Richfield"), the Group's hotel management arm in the United States. However, with new management in place at Richfield this year that is actively pursuing hotel management contracts, a strong pipeline of potential contracts has been built up in a relatively short period of time.

The management will adopt a cost-conscious approach towards managing its current business. The Group continues to hold some trading securities while its cash reserves are in a basket of currencies. From time to time, there could be continued adjustments attributable to unrealised gains or losses arising from the fair value readjustments of the Group's trading securities and unrealised gains or losses on revaluation of foreign currency cash deposits.

As the global economy continues to recover, investment opportunities may become available at attractive valuations. The Group has significant cash reserves to capitalise on any attractive investment opportunities that may arise.

Shareholders of the Company and potential investors should note that all figures contained herein are unaudited and are advised to exercise caution when dealing in the shares of the Company.
