3. PRESENTATION BY THE GROUP CEO

At the Chairman's request, Mr Sherman Kwek, the Group CEO, gave a presentation on the Group's performance and operations in 2019 and its focus for 2020. The areas covered under the presentation included the following:

- Key Highlights – slides comprised:
 - the key financial highlights for the financial year ended 31 December 2019 ("FY 2019"), noting that the decrease in revenue was due to the timing of revenue recognition for property development segment. However, the Group continued to show a strong EBITDA of \$1.13 billion (a drop of 5.2% year-on-year) despite the 18.8% decline in revenue;
 - the proposed special final and final dividends in respect of FY 2019, the share price performance over the year, and the total shareholders' return of 37.3% (taking into account the proposed dividends for FY 2019);
 - the Group's diversified global portfolio, showing percentage of revenue by geographical location and by business segments;
 - the growing global footprint of the Group, highlighting the strategic investments and acquisitions made in FY 2019 totaling more than \$2.3 billion in UK and Europe, China, Australia, Japan and Singapore;
 - Property Development (Singapore operations) had a record launch of 6 projects in 2019, and sold 1,554 units with sales value of \$3.3 billion;
 - Asset Management (Singapore operations) showed strong committed occupancy rates of 90.9% for its Office portfolio and 94.4% for its Retail portfolio (as at 31 March 2020), with a well-spread lease expiry profile over the next few years;
 - International Operations – showing the key milestones achieved in 2019 in the private rented sector (PRS) in UK and Japan, growth of property development portfolio in

- Australia, property development sales in China and the asset management growth in UK pursuant to the acquisition of two prime freehold Central London office assets;
- Hospitality segment –the successful privatization of Millennium & Copthorne Hotels Limited in 2019, the Group’s focus on integration and holistic review of the enlarged hotel operations segment to improve operational processes and to maximise shareholders’ value; and
- the list of key accolades received in 2019 from the business and performance perspectives and on the sustainability front.
- COVID-19 Impact – slides comprised:
 - operational impact arising from the unprecedented disruption across all business segments of the Group, namely property development, asset management and hospitality segments;
 - Property Development - residential sales and development progress were impacted by circuit breaker restrictions, such as temporary closure of 6 sales galleries in Singapore and the halt of construction works. Nevertheless, the operations remained nimble with enhanced digital marketing initiatives and continued to register sales despite the closure of sales galleries. Subject to market conditions, the Group expects to launch the 566-unit Penrose, a joint venture project at Sims Drive, in the second half of 2020 and the 222-unit Brickworks Park, a residential project in the Alderley suburb, Brisbane, Australia;
 - Asset Management - over \$30 million in rental relief and support given to tenants in Singapore and overseas;
 - Hotel Operations – the Q1 2020 performance was severely impacted with declines in global occupancy rates, RevPAR and ARR, and as at 21 June 2020, 23% of the Group’s hotels are closed (35 hotels);
 - the implementation of business optimisation and cost management measures, the Group’s operational resilience achieved from a digital-ready workforce, the community initiatives undertaken to support vulnerable individuals, families and communities affected by COVID-19; and
 - capital management – focusing on the Group’s strong balance sheet and liquidity position as at 31 March 2020.
- Outlook – focusing on the Group’s GET strategy, namely Growth, Enhancement and Transformation with slides comprising the following:
 - Growth drivers – a diversified residential launch pipeline of more than 1,800 units ranging from mass-market to high-end development projects expected to be launched in the second half of 2020 and in 2021;
 - Enhancement drivers – through redevelopment and repositioning of the Group’s existing asset portfolio, e.g. the Group is doing a feasibility study for redevelopment of eligible assets such as Fuji Xerox Towers under the CBD Incentive Scheme, and doing a holistic review of the Group’s enlarged hotel portfolio;
 - Transformation drivers – the Group has stayed on course to achieve Assets under Management (AUM) of US\$5 billion by 2023 through the establishment of fund management platforms and strategic acquisition of increased stakes in IREIT Global. Another key driver was the acquisition of a 51.01% joint controlling stake of Sincere Property Group in a transformational China platform deal. With a call option exercisable in 2022 for another 9.00% stake, CDL could increase its stake to 60.01% and gain control of one of China’s Top 100 Developers.

After the presentation, the Group CEO handed over the proceedings to the Chairman.

A1	<p>Will the current dividend payment be affected by the COVID-19 shutdown?</p> <p>Given the COVID-19 situation, what is the dividend policy please?</p> <p>In what way will the next dividend policy be affected, and is there a chance that the same dividend be maintained as the latest one?</p>	<p>The final dividend of \$0.08 per ordinary share and special final dividend of \$0.06 per ordinary share (collectively, the “Dividends”) were recommended by the Board in February 2020. This recommendation remains unchanged and the proposed declaration of the Dividends will be tabled at the AGM for approval.</p> <p>The proposed Dividends, if approved by the shareholders at the forthcoming AGM, will be paid on 16 July 2020.</p> <p>In line with our Dividend Policy (please see page 52 of our <u>Annual Report 2019</u>), the Group aims to provide a return to shareholders at least once a year through the payment of dividends, after taking into account the Group’s financial performance, short and long term capital requirements, future investment plans, general global and business economic conditions and any regulatory factors.</p> <p>As the COVID-19 situation remains fluid, the full extent of the impact of the pandemic on the Group’s business and its financial performance for the rest of FY 2020 cannot be conclusively determined yet. At this stage, the Board is unable to provide any confirmation on the dividend rates in connection with the Company’s ordinary shares going forward.</p> <p>The Board strives to continuously maintain a balance between shareholders’ expectations and prudent capital management.</p>

B BUSINESS OPERATIONS, STRATEGY AND OUTLOOK

No.	Question	Response
B1	<p>Does CDL cover 'property management' across all its geographical locations? If it does, any potential to unlock value via separate listing(s) on the local or foreign stock exchanges?</p>	<p>We continually explore ways to enhance and unlock value from our asset portfolio, as outlined in our GET strategy of Growth, Enhancement and Transformation.</p> <p>Our Group's track record in property development and asset management helps to set the foundation for building up our fund management business, and our plans include the potential setting up of private funds and/or REITs to unlock value and accelerate growth.</p>
B2	<p>What is the strategy going forward to address the current challenges posed by COVID-19 and the low interest environment?</p>	<p>To mitigate the impact of the pandemic, the Group has implemented a series of business optimisation and cost control initiatives to reduce operating expenses. The Group continues to review its borrowings position to capitalise on the low interest environment.</p> <p>While we continue to embrace a highly disciplined capital management approach of conserving cash and maintaining liquidity to face any challenges arising from the pandemic, we are also mindful that there are opportunities to be seized and we will continue to find ways to accelerate growth and create lasting value.</p>
B3	<p>Do you expect the COVID-19 outbreak to affect foreign investment in Singapore? If so, how will it be affected?</p>	<p>The global economy has been severely disrupted by COVID-19 and companies globally are facing short-term pressures as quick recovery is not foreseeable in the near-term.</p> <p>The Singapore Government has to-date put in place four stimulus budget packages, comprising nearly \$100 billion or close to 20% of Singapore's GDP, to help businesses and households cope with the devastating economic impact from COVID-19. While we expect longer term economic challenges to remain formidable, we are confident that with the Government's swift and decisive response, Singapore will continue to be an attractive investment destination anchored by a strong reputation and track record. In such challenging times, investors value the stable political environment, high transparency, good governance and well-developed infrastructure that Singapore offers.</p> <p>For the first four months of this year, EDB has already secured \$13 billion of investment commitments from MNCs – reflecting investors' confidence and desire to remain vested and grow their business in Singapore. With more innovative projects in the pipeline, it will create new and exciting opportunities for Singapore and our workforce.</p> <p>Post-COVID-19, the Group believes Singapore will emerge stronger with foresight and resilience. The Future Economy strategies will similarly put us in good standing with investors. Businesses have been working hard to transform themselves,</p>

		<p>deepen their capabilities and enhance their business models to adapt to the uncertainties ahead.</p>
B4	<p>What is the projection in growth for the Singapore property market in the next five years?</p>	<p>Several new launches this year have registered strong sales reflecting Singapore’s resilient housing market and healthy home demand for first-time buyers and upgraders. During the circuit breaker period, sales transactions continued (albeit slower) despite restrictions placed on physical interaction and viewing of show flats.</p> <p>The Group stepped up its digital marketing efforts through the use of e-collaterals, <u>virtual tours</u> of its showflats and online sales presentations. Interest was encouraging and we saw an increase of over 30% in online traffic views for our launched projects during the circuit breaker period. Moving forward, we will continue to adopt more virtual marketing tools to assist in our sales and engagement efforts, which has been positively received and effective.</p> <p>Residential prices are likely to remain competitive. On 6 May 2020, the <u>Singapore Government announced a six-month extension</u> on [1] Project Completion Periods (PCPs), [2] Qualifying Certificate (QC) deadlines for developers and [3] Additional Buyer’s Stamp Duty (ABSD) remission deadlines for property developers. This extension helps to mitigate the current disruptions arising from COVID-19 safe management measures, as well as the constraints in manpower and supply chain challenges faced by developers.</p> <p>Developers are likely to pace out their launches and the Government Land Sales programme has been tightened to reduce the supply of land. These will help to balance the supply and demand equation, providing a stable and sustainable property market.</p> <p>In land scarce Singapore, the property market will continue to remain attractive to local and overseas investors. With high liquidity in the market coupled with a low interest rate environment for home loans, property investment provides wealth preservation and portfolio diversification when viewed with a medium to long-term perspective.</p> <p>We remain positive on the outlook for Singapore’s residential property market.</p> <p><i>*NOTE: All developers are subject to the ABSD where all units in GLS or en-bloc sites must be completed and fully sold within five years or face ABSD penalties. Additionally, the Qualifying Certificate (QC) rules (which apply to non GLS sites) are also imposed on listed developers (because of foreign ownership regardless of the percentage of shareholdings) where their developments are required to obtain TOP within 5 years and all units sold within two years from the date of TOP failing which escalating penalties are payable.</i></p>

B5	Balance sheet inventories – how much relates to completed units that are unsold? Is there a government regulation regarding when these units must be sold and what proportion of unsold inventory is affected by such regulation?	<p>The majority of our unsold inventory are projects that are under construction with most projects expected to obtain their Temporary Occupation Permits (TOPs) only from 2022 onwards.</p> <p>The <u>six-month extension given by the Singapore Government</u> (detailed in the response under B4) is timely as the unprecedented circuit breaker measures have resulted in manpower and supply chain challenges for the industry. It provides some buffer time to accommodate any delays.</p> <p>The only ABSD deadline the Group initially faced this year is for our Forest Woods project, which is 99% sold with only three units remaining. Due to the extension, the deadline is now pushed back to May 2021. The Group is confident of clearing the inventory within this timeframe.</p>
B6	Which properties are scheduled for launch this year and/or in 2021?	<p>Subject to market conditions, the Group's Singapore residential launch pipeline includes:</p> <ul style="list-style-type: none"> • 2H 2020 – Penrose, a 566-unit condominium located at Sims Drive, near Aljunied MRT station. This project is managed by our joint venture (JV) partner Hong Leong Holdings Limited. • 2021 – Irwell Bank Road, a condominium development with about 540 units located along River Valley Road, near the upcoming Great World MRT station. • 2021 – the residential component of the Liang Court redevelopment, an integrated development with around 700 apartments. This JV project with CapitaLand Limited will also include a commercial component, a hotel and a serviced residence with a hotel licence.
B7	Appreciate an update of the latest business status, as regards, hotels locally and internationally, office occupancy and residential project sales status.	<p>Please refer to the Company's <u>operational update and presentation deck for the first quarter ended 31 March 2020</u> issued on 12 May 2020. It contains salient information about the Group's property development segment, its investment properties and hotel operations. The documents are available on the Company's corporate website as well as on the website of the Singapore Exchange.</p> <p>The Company will be announcing, within the first two weeks of August 2020, the Group's unaudited financial results for the half year ending 30 June 2020.</p>

C OTHERS

No.	Question	Response
C1	How much do you think the issue relating to the need to improve living conditions for migrant workers would impact the future cost of construction of your residential properties?	<p>Due to increased regulatory requirements, it is expected that construction costs will go up as the industry adjusts to new norms, including the implementation of <u>Safe Living protocols</u> and compliance with Safe Management Measures. Nevertheless, the Government has indicated that it will work closely with the industry to get through this challenging period. In addition to the support measures provided through the Fortitude Budget, it plans to introduce measures to cushion the impact and move the industry to new productivity levels.</p> <p>The pandemic has expedited a push towards digitisation, automation and industry transformation under the Future Economy blueprint.</p> <p>To help improve productivity and reduce labour onsite, the Group is one of the early adopters of newer construction technologies such as the Design for Manufacturing and Assembly (DfMA) and Prefabricated Prefinished Volumetric Construction (PPVC). DfMA enables the design and construction to be done on a 3D virtual platform before moving into actual production, which saves time and resources. For PPVC, prefabricated modules are produced and quality-checked in a factory environment before being assembled onsite, which enhances worksite safety and requires fewer workers for onsite installation. Compared with conventional construction methods, these technologies help to accelerate the design, production and site implementation processes.</p>

CITY DEVELOPMENTS LIMITED
(Co. Reg. No. 196300316Z)

ANNUAL GENERAL MEETING (AGM) TO BE HELD ON 24 JUNE 2020
- RESPONSE TO FURTHER QUESTION RECEIVED FROM SHAREHOLDER

The Board of Directors of City Developments Limited (the “Company”) refers to the Company’s announcement on 19 June 2020 (“**19 June Response**”) wherein the Company had set out its response to the questions received from shareholders that are relevant to the AGM resolutions and the business of the Group.

Subsequent to the Company’s 19 June Response, the Company received an additional query from a shareholder which is set out below:

Question: Please give an update on how our hospitality M&C business is affected by the Covid-19 crisis. What is the outlook going forward?

Company’s Response:

With regard to questions relating to our business outlook including that of our hospitality business, especially taking into account the impact arising from the COVID-19 pandemic in Singapore and globally, we would like to refer shareholders to the Company’s operational update for the 1st quarter ended 31 March 2020 (“Q1 2020”) together with the presentation deck which were both issued on 12 May 2020. These documents may be found on the Company’s corporate website as well as on the website of the Singapore Exchange.

Key operating statistics relating to the hotel operations, including the various regions’ average occupancy rates, average room rates and RevPAR for Q1 2020 have been set out in the aforementioned operational update. As at 31 March 2020, around 30% of the Group’s global portfolio of 152 hotels were temporarily closed following lockdowns imposed by local governments to curb the COVID-19 outbreak. This percentage has dropped to around 23% of the Group’s portfolio, with 35 hotels temporarily closed as at 21 June 2020.

The Group’s hospitality business has suffered most severely from the impact of COVID-19. The near term outlook remains highly challenging and uncertain. However, the Group has a strong balance sheet and is well positioned to absorb the pressures. While headwinds continue to persist, the Group will stay resilient and agile as it navigates through the storm.

The Company will be announcing, within the first two weeks of August 2020, the Group’s unaudited financial results for the half year ending 30 June 2020, and shareholders are advised to refer to the same when it is released.
