Yes [X] No []

If yes, state the name of such Stock Exchange and the class/es of securities listed therein:

PHILIPPINE STOCK EXCHANGE, INC. COMMON

12. Indicate by check mark whether the registrant:

(a) has filed all reports required to be filed by Section 17 of the Code and SRC Rule 17 thereunder or Sections 11 of the RSA and RSA Rule 11(a)-1 thereunder, and Sections 26 and 141 of the Corporation Code of the Philippines, during the preceding twelve (12) months (or for such shorter period the registrant was required to file such reports)

Yes [X] No []

(b) has been subject to such filing requirements for the past ninety (90) days.

Yes [X] No []

PART I – FINANCIAL INFORMATION

Item 1 Financial Statements

Financial Statements and, if applicable, Pro-forma Financial Statements meeting the requirements of SRC Rule 68, Form and Content of Financial Statements, shall be furnished as specified therein.

Item 2 Management's Discussion and Analysis of Financial Condition and Results of Operations.

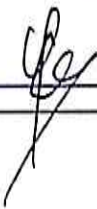

Furnish the information required by Part III, Paragraph (A)(2)(b) of "Annex C"

PART II – OTHER INFORMATION

The issuer may, at its option, report under this item any information not previously reported in a report in SEC Form 17-C. If disclosure of such information is made under this Part II, it need not be repeated in a report on Form 17-C which would otherwise be required to be filed with respect to such information or in a subsequent report on Form 17-Q.

SIGNATURES

Pursuant to the requirements of the Securities Regulation Code, the issuer has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

Issuer YAM KIT SUNG
Signature and Title  General Manager & Chief Financial Officer
Date _____

PART I – FINANCIAL INFORMATION

Item 1. Financial Statements Required Under SRC Rule 68.1

- Please see attached financial statements for interim Balance Sheets, Statements of Income, Statements of Changes in Equity and Statements of Cash flows.

Notes to Financial Statements

Summary of significant accounting policies

The financial statements of the Company have been prepared in accordance with Philippine generally accepted accounting principles (GAAP) and are denominated in Philippine pesos. The preparation of financial statements in accordance with Philippine GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates. The financial statements have, in management's opinion, been properly prepared within reasonable limits of materiality and within the framework of the significant accounting policies.

The same accounting policies and methods of computation are followed in the interim financial statements for the year 2011 as compared with the most recent annual financial statements.

Seasonality or Cyclicity of Interim Operations

All segments of the business are in its normal trading pattern.

Material Items

There are no material items affecting assets, liabilities, equity, net income or cash flows that are unusual because of their nature, size or incidents.

Estimates

There are no changes in estimates of amounts reported in prior interim periods of the current financial year or changes in estimates of amounts reported in prior financial years that have a material effect in the current interim period.

Issuances of Debts and Equity

There are no issuances, repurchases and repayments of debts and equity securities.

Dividends

There were no dividends declared in the current interim period.

Segment Revenue and Results

Statement of Financial Accounting Standard No. 31, “Segment Reporting”, which becomes effective for financial statements covering periods beginning on or after January 1, 2001, requires that a public business enterprise report financial and descriptive information about its reportable segments. Operating segments are components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operating decision-maker in deciding how to allocate resources and in assessing performance.

The Company organized its business into 4 main segments:

- Room Division – Business derived from the sale of guestrooms.
- Food and Beverage Division – Business derived from the sale of food and beverage at various restaurants.
- Other Operated Departments and rental – Business derived from telephone department, business center, carparking, laundry and rental of space.

The segment revenues and results are as follows:

	YTD 1 st Quarter Revenue – Peso ‘000	YTD 1 st Quarter Department Profit – Peso ‘000
Room	99,525	83,630
Food and Beverage	46,137	18,108
Other Operated Departments and rental	38,889	37,602

Subsequent Events

None

Composition of Company

There are no changes in the composition of the Company during the interim period, including business combinations, acquisition or disposal of subsidiaries and long-term investments, restructurings and discontinuing operations.

Contingent assets or liabilities

There are no changes in contingent assets or liabilities since the last annual balance sheet date.

Contingencies

There are no material contingencies and any other events or transactions that are material to an understanding of the current interim period.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The top 5 Key Performance Indicators of the Company are as follows:

<i>Balance Sheet Analysis</i>	31 March 2013	31 March 2012	31 December 2012
Current ratio (Solvency ratio)	1.64	1.80	1.93
Debt/Equity	0.40	0.36	0.37
Assets/Equity	1.40	1.36	1.37
Profit before tax margin ratio	33.67%	36.18%	34.06%
EBITDA	70.26m	76.34m	260.5m

Note: The Company has no loans due to third party or related parties.

Current ratio is derived by dividing the current assets with the current liabilities. This indicator measures the liquidity of the Company in the short-term. The current ratio has reduced during the period of review mainly due to lesser current assets especially in cash due to share buyback and dividends payments in the second half of year 2012.

Debt to equity ratio measures a company financial leverage. It is derived by dividing total liabilities over equity. There is an increase in this ratio for the quarter due to higher accounts payable balance.

Assets/Equity ratio measures the proportion of equity used to finance assets of the company and it is derived by dividing total assets to equity.

Profit before tax margin ratio is computed by dividing the profit before tax against the total revenue. This ratio measures whether the Company is able to contain its expenses in relation to the revenue. This ratio has dropped due to lower revenue.

EBITDA represents earnings before interest, tax, depreciation and amortization. This indicator measures the operating cash flow of a company. For the quarter under review, EBITDA dropped by PhP6.08m due to lower revenue.

Balance Sheets Analysis:

Total assets increased by about PhP94 million or 6% as compared to the end of last fiscal year. The increase is due to higher cash balance. As compared to the same period of last year, total assets decreased by PhP62 million or 3.8%.

Cash and short term notes:

This balance includes short-term fixed deposits with banks. This balance increased by PhP70 million (25%) relative to end of last fiscal year. This is due to collection from a tenant for advance rental. Relative to the same period of last year, there is a drop of PhP60 million due to the share buyback exercise and dividend payment in second half of year 2012.

Accounts receivable – others:

The variance against end of last fiscal year is due to the unpaid utility charges of a tenant as at end of this period. The outstanding charges were paid in April 2013.

Deferred tax assets:

This is the recognition of the deferred tax on the advance rental paid by Pagcor which will be amortized monthly. Relative to the end of last fiscal year, this balance increased by PhP7 million due to the payment of the advance rental.

Advances to associated/related companies:

The Company, in its normal course of business, has entered into transactions with its related parties, principally consisting of cash advances.

The Company leases its hotel site from an associated company. The Company has also entered into a management agreement with Elite Hotel Management Services Pte. Ltd., a related company, for the latter to operate the Hotel.

Under the terms and conditions of the agreement, the Company has to pay monthly basic management and incentive fees based on a percentage of the hotel's revenue and gross operating profit.

As compared with the end of last fiscal year, there is an increase of about PhP2.7 million as the companies have repaid their balances outstanding during the year.

Inventories:

Inventories have reduced by PhP0.56 million and PhP1.92 million as compared to end of last fiscal year and same period of last year respectively which is consistent with the lower food and beverage revenue.

Other current assets:

The increase against the same period of last year is mainly due to deposits with contractors for some capital expenditure projects.

Property and Equipment:

Property and equipment are carried at cost. Depreciation is provided under the straight-line method over the estimated useful lives of the assets ranging from 5 to 50 years. Major improvements are charged to property accounts while maintenance and repairs which do not improve the lives of the assets are expensed as incurred.

The decrease in balance is due to depreciation charges for the year.

Accounts payable:

There is an increase of PhP12 million and PhP13.5 million as compared to the end of last fiscal year and same period of last year respectively.. The increase is due to increase in payables to suppliers and VAT.

Rental payable:

As compared with the end of last fiscal year, there is an increase PhP2.8 million as the Company has not settle its rental to a related company in the first quarter of the year.

Deferred rental:

There is an increase in this balance by PhP24.4 million as compared to end of last fiscal year. This relates to the advance rental from a tenant which will be amortized over the remaining period.

Due to associated/related companies:

There is an increase of PhP7.6 million as compared to end of last fiscal year as company has not settled its obligations with the related company during the first quarter.

Income Tax Payable:

Income tax payable increased by PhP6.3 million as compared to the end of last year as the Company has not paid its income tax in the first quarter.

Reserves:

Reserves increased by PhP1.7 million compared to end of last fiscal year due to the provision made during the first quarter.

Income Statement Analysis For the 3 Months Ended 31 March 2013:

Revenue:

Total revenue decreased by PhP3.2 million (1.7%) versus same period last year. The main reason for the fall is due to lower Food and Beverage (F&B) revenue but offset by the higher room and other income.

Rooms division recorded an improvement in occupancy from 72% to 77% or 5 percentage point increment. Average Room Rate recorded a slight fall from PhP3,221 to PhP3,163. The net effect is Revenue per available room (Revpar) showed a healthy improvement of 5%.

F&B business recorded a fall of PhP8.9 million or 16% as compared to the same period of last year. Total covers dropped from 104,258 in year 2012 to 87,894 in year 2013. This unfavorable variance is mainly due to the fall in revenue from Riviera and Casino outlets. Both Riviera and Casino revenue fell by 24% and 46% respectively versus the same period of last year. However, Banquet showed a significant improvement by registering an increase in revenue from PhP9.7 million to PhP13.6 million or 39% from the prior year.

Rental income increase by PhP2.7 million or 8% due to increase in rental rate for a major tenant.

Cost of Sales:

Cost of sales for F&B registered a decrease of PhP1.78 million or 10% as compared to last year which is consistent with the lower food and beverage revenue

Gross Profit:

Gross profit is derived after deducting cost of sales from gross revenue. Gross profit as compared to last year is marginally lower.

Operating Expenses:

Operating expenses include among others, payroll and related expenses, utilities, depreciation charges, rental and other fixed expenses. There is an increase in operating expenses of PhP4.2 million or 4% as compared to the same period of last year. The main increase is due to increase in the payroll and related expenses of Administrative and General Department which is due to hiring of expatriate Executive Assistant Manager in the last quarter of 2012.

Net Operating Income:

This is derived after deducting operating expenses from gross operating profit. This indicator fell by PhP5.7 million or 8.5% due to lower revenue.

Non-operating income:

Total non-operating income decreased marginally by PhP0.061 million as compared to the same period of last year. This is due to lower interest income and absence of dividend income and gain on disposal of fixed assets.

Profit after tax:

As a result of higher revenue, the profit after tax for this quarter dropped by PhP4.2 million (8.8%) versus last year.

There are no material event(s) and uncertainties known to management that would address the past and would have an impact on the future operations of the following:

- Any known trends, demands, commitments, events or uncertainties that will have a material impact on the Company's liquidity.
- Any material commitments for capital expenditures, the general purpose of such commitments and the expected sources of funds for such expenditures.
- Any known trends, events or uncertainties that have had or that are reasonably expected to have a material favorable or unfavorable impact on net sales/revenues/income from continuing operations.
- Any significant elements of income or loss that did not arise from the Company's continuing operations.
- The causes for any material change(s) (5% or more) from period to period in one or more line items (vertical and horizontal) of the Company's financial statements.
- Any seasonal aspects that had a material effect on the financial condition or results of operations.

Management is not aware of any event that may trigger direct or contingent financial obligations that is material to the Company, including any default or acceleration of an obligation. Management is not aware of any material off-balance sheet transaction, arrangement, obligation (including contingent obligations), and other relationships of the Company with unconsolidated entities or other persons that were created during the first 3 months of 2013.

PART II – OTHER INFORMATION

Tax matter:

In the middle of 2008, the Company received from the Bureau of Internal Revenue ("BIR") a Final Decision on Disputed Assessment finding the Company liable for deficiency value added tax ("VAT") with respect to the years 1996 to 2002 in total amount of PhP228.94 million, inclusive of penalty and interest from January 2003 to December 2006. The Company subsequently filed a petition for review with the Court of Tax Appeal ("CTA") to contest such Final Decision on Disputed Assessment.

The BIR further issued a Warrant of Distraint and/or Levy and Warrant of Garnishment against the Company and its assets. On 12 September 2008, the Company filed a surety bond with the CTA, and the CTA issued a Temporary Restraining Order enjoining the

BIR from further efforts at collection of taxes, particularly the implementation of the Warrant of Distraint and/or Levy and the Warrant of Garnishment.

In 2009, the Company moved to have a preliminary hearing conducted to first resolve the legal issue of whether or not the services rendered by the Company to PAGCOR is subject to VAT at 10% rate. The CTA granted the motion and hearings were subsequently conducted. On 18 February 2011, the CTA ruled in favor of the Company and cancelled the VAT deficiency assessment *in toto*.

As mentioned in the CTA Resolution, in line with the decision of the Supreme Court in *Philippine Amusement and Gaming Corporation (PAGCOR) vs. The Bureau of Internal Revenue, et al.*, the CTA, in its decision dated 18 February 2011, cancelled the BIR's assessment against the Company for deficiency VAT in the amount of PHP228,943,589.15 for taxable years 1996 to 2001. In its resolution dated 17 May 2011, the CTA denied the Commissioner of Internal Revenue's Motion for Reconsideration of the CTA's decision rendered on 18 February 2011. According to the CTA, considering that the assessment against the Company for deficiency VAT has been cancelled, the CTA deemed it proper that the surety bond posted by the Company be discharged. The BIR shortly filed an appeal with the CTA En Banc.

On 1 September 2011, the CTA En Banc resolved to give course to BIR's appeal. The Company filed its Memorandum in October 2011. On 27th July 2012, the CTA En Banc resolved that consistent with the pronouncement of the Supreme Court in the cases of *CIR vs. Acesite Hotel Corporation* and *PAGCOR vs. CIR*, that services rendered to PAGCOR are exempt from VAT, CIR's petition has no leg to stand on and must necessarily fall. The BIR filed a Motion for Reconsideration.

On 8th October 2012, the CTA En Banc resolved that BIR's Motion for Reconsideration is denied and the earlier decision of the CTA promulgated on 17th May 2011 is affirmed. On 5th December 2012, BIR filed with the Supreme Court a Petition for Review. As at the date of this report, the Petition for Review is still pending with the Supreme Court.

The Company will continue to pursue its case with the Supreme Court and will file the necessary disclosure on the outcome thereof following the issuance of the judgment of the Supreme Court.

Other than the above tax case, to the best knowledge and/or information of the Company, neither itself nor any of its affiliates and subsidiaries have been involved during the past five (5) years in any material legal proceedings affecting/involving the Company, its affiliates or subsidiaries, or any material or substantial portion of their property before any court of law or administrative body in the Philippines or elsewhere.

Financial Risk Exposure:

In the context of the current global financial condition, the Securities and Exchange Commission sent us a memorandum to companies on 29 October 2008, which requires

companies to make a self-assessment or evaluation to determine whether any of the items below are applicable. If applicable, these items must be disclosed in the interim financial report on SEC Form 17-Q (“Quarterly Report”):

1. The qualitative and quantitative impact of any changes in the financial risk exposures of GPHC, particularly on currency, interest, credit, market and liquidity risks, that would materially affect its financial condition and results of operation, and a description of any enhancement in the Company’s risk management policies to address the same.
2. A description of the financial instruments of the Company and the classification and measurements applied for each. If material in amount, provide detailed explanation or complex securities particularly on derivatives and their impact on the financial condition of the Company.
3. The amount and description of the Company’s investments in foreign securities.
4. The significant judgments made in classifying a particular financial instrument in the fair value hierarchy.
5. An explanation of how risk is incorporated and considered in the valuation of assets or liabilities.
6. A comparison of the fair values as of date of the recent interim financial report and as date of the preceding interim period, and the amount of gain or loss recognized for each of the said periods.
7. The criteria used to determine whether the market for a financial instrument is active or inactive, as defined under Philippine Accounting Standard 39 – Financial Instruments.

The Board of Directors (BOD) has overall responsibility for the establishment and oversight of the Company’s risk management framework. The BOD has established the Executive Committee, which is responsible for developing and monitoring the Company’s risk management policies. The committee identifies all issues affecting the operations of the Company and reports regularly to the BOD on its activities.

The Company’s risk management policies are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company’s activities. All risks faced by the Company are incorporated in the annual operating budget. Mitigating strategies and procedures are also devised to address

the risks that inevitably occur so as not to affect the Company's operations and detriment forecasted results. The Company, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Audit Committee directly interfaces with the internal audit function, which undertakes reviews of risk management controls and procedures and ensures the integrity of internal control activities which affect the financial management system of the Company. The results of procedures performed by Internal Audit are reported to the Audit Committee.

Credit Risk

Credit risk represents the risk of loss the Company would incur if credit customers and counterparties fail to perform their contractual obligations. The Company's credit risk arises principally from the Company's trade receivables.

Exposure to credit risk is monitored on an ongoing basis, credit checks being performed on all clients requesting credit over certain amounts. Credit is not extended beyond authorized limits, established where appropriate through consultation with a professional credit vetting organization. Credit granted is subject to regular review, to ensure it remains consistent with the clients' current credit worthiness and appropriate to the anticipated volume of business.

The investment of the Company's cash resources is managed so as to minimize risk while seeking to enhance yield. The Company's holding of cash and money market placements expose the Company's to credit risk of the counterparty if the counterparty is unwilling or unable to fulfill its obligations and the Company consequently suffers financial loss. Credit risk management involves entering into financial transactions only with counterparties with acceptable credit rating. The treasury policy sets aggregate credit limits of any one counterparty and annually reviews the exposure limits and credit ratings of the counterparties.

Receivables balance is being monitored on a regular basis to ensure timely execution of necessary intervention efforts. As of balance sheet date, there were no significant concentrations of credit risk.

Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company manages liquidity risk by forecasting projected cash flows and maintaining a balance between continuity of funding and flexibility. Treasury controls and procedures are in place to ensure that sufficient cash is maintained to cover daily operational and working capital requirements. Management closely monitors the Company's future and contingent obligations and sets up required cash reserves as necessary in accordance with internal requirements.

Market Risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and other market prices will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

The Company is subject to various market risks, including risks from changes in room rates, interest rates and currency exchange rates.

Room Rates

The risk from room rate changes relates to the Company's ability to recover higher operating costs through price increases to customers, which may be limited due to the competitive pricing environment that exists in the Philippine hotel industry and the willingness of customers to avail of hotel rooms at higher prices.

The Company minimizes its exposure to risks in changes in room rates by signing contracts with short period of expiry so this gives the Company the flexibility to adjust its room rates in accordance to market conditions.

Interest Rate Risk

The Company has no interest-bearing debt obligations to third parties. As such, the Company has minimal interest rate risk.

Foreign Currency Risk

Foreign assets and financing facilities extended to the Company were mainly denominated in Philippine Peso. As such, the Company's foreign currency risk is minimal.

The Company functional currency is Philippines peso. As at 31 March 2013, it holds bulk of its cash and cash equivalent in Philippines peso. The United States dollars are used to settle foreign obligations. As such, the Company does not have currency risk exposure.

The Company does not have any third party loans so it has no interest rate risk. The Company in the ordinary course of business extends credit to its customers. Exposure to credit risk is monitored on an ongoing basis, credit review being performed for clients requesting for credit limit. The total exposure to trade receivables as at 31 March 2013 is Peso38 million.

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company manages liquidity risk by forecasting projected cash flows and maintaining a balance between continuity of funding and flexibility. As at 31 March 2013, the Company has Peso728 million current assets and Peso442 million liabilities so the current assets are able to cover its liability.

The Company does not invest in any other financial instruments. Any surplus funds are placed in short-term fixed deposits with local bank like Metropolitan Bank and Trust Co. and foreign bank like Australian and New Zealand Bank (ANZ), Standard Chartered Bank and United Overseas Bank Singapore

The Company also does not invest in foreign securities.

The fair values together with the carrying amounts of the financial assets and liabilities shown in the balance sheet date are as follows:

	31 March 2013	31 March 2013	31 December 2012	31 December 2012
	Carrying amount	Fair value	Carrying amount	Fair value
Cash and cash equivalents	353,523,519	353,523,519	282,627,393	282,627,393
Receivables net	293,352,940	293,352,940	304,042,397	304,042,397
Due from/(to) related party net	6,068,728	6,068,728	2,128,022	2,128,022
Loan receivable	15,500,000	15,500,000	15,500,000	15,500,000
Lease deposit	78,000,000	78,000,000	78,000,000	78,000,000
Accounts payable & accrued expenses	342,954,652	342,954,652	332,211,741	332,211,741

The following summarizes the methods and assumptions used in estimating the fair values of financial instruments reflected in the above table:

Cash and cash equivalent – the carrying amount approximates the fair value due to its short maturity.

Receivables/ due from related party/ loan receivable/ lease deposit/ accounts payable and accrued expenses/ due to related party – current receivables are reported at their net realizable values, at total amount less allowances for uncollectible amounts. Current liabilities are stated at amounts reasonably expected to be paid within the next 12 months or operating cycle. Due from/to related party and loan receivable are payable on demand. In the case of lease deposit, the fair value approximates the carrying amount.
