Chairman's Statement

On behalf of the Board of Directors, I am pleased to present the results of the City Developments Limited Group ("the Group") for the financial year ended 31 December 2001.

Review of the Performance of the Company and its Principal Subsidiaries

The Group achieved turnover of \$2.2 billion for the year ended 31 December 2001 (2000: \$2.6 billion) and recorded a pre-tax profit of \$138.9 million (restated 2000: \$546.2 million). After-tax profit attributable to shareholders was \$41.6 million (restated 2000: \$286.7 million). The decrease in profit is largely due to lower contributions from the property and hotel operations and lower share of profits from associated companies. The reasons for lower contribution from property operations are fewer projects completed and sold in the year and provisions made for development and investment properties amounting to \$101 million. These provisions were necessary in the light of the weak economy compounded by excessive price

cuts by a number of developers. Profits from hotel operations have also declined significantly as a result of the global economic slowdown and 9/11.

Unlike all the other listed Singapore property companies that do not depreciate their investment properties, the Group continues to adopt a conservative accounting policy of depreciating these properties. This resulted in a total depreciation charge of \$200.7 million (2000: \$190 million) for the year.

● *M Hotel Singapore: Rebranded to cater to the needs of today's discerning business traveller*

Chairman's Statement

• Healthy take-up for Goldenhill Park Condominium

Property 2001 was a challenging year with the Singapore economy in severe recession when we launched three new projects. The first was Goldenhill Park Condominium in March 2001, which received a healthy take-up rate at a time when the market had started to show signs of activity. However, when some developers slashed prices, our subsequent sales were affected.

Our second project launch, in July, was Changi Rise Condominium. It received an even healthier response until the aftermath of 9/11 when some developers drastically cut prices a second time.

On both occasions, we did not engage in a price war. Our decision was taken to protect value for our early purchasers without succumbing to extreme price adjustments. This practice creates goodwill with our buyers and at the same time will not unnecessarily destroy shareholder value. It was a strategy which proved prescient. Goldenhill was relaunched in January 2002 without any price reduction while Changi Rise was relaunched a month later at even higher rates than its initial launch. The healthy reception to these relaunches confirmed that we were correct in our strategy to remain calm and not over-react. This was reinforced when our third launch, Nuovo Executive Condominium, was sold out within a week in November. This project turned sentiment around dramatically and helped kick-start buying interest.

Although the Group successfully launched the three new projects, virtually all contributions from these projects will be recognised from 2002 and beyond. No provisions were required for these three projects.

• Changi Rise Condominium

The year under review was also very trying for the commercial sector. Rental rates in Singapore fell by an average of 16-17%. As the recession led to a number of companies either closing down, downsizing operations, or sub-letting their offices, some landlords scrambled to fill up vacancies with a rate war. However, these were mitigated by the limited supply of new office space coming onstream. As a result, occupancy rates declined a mere 0.9%. Notwithstanding these difficult conditions, the Group achieved a 5% increase in rental income.

The retail sector was relatively stable with the Group's suburban mall recording healthy occupancy and rental rates.

The Group invested in two projects in Seoul, South Korea, amounting to US\$70 million. The first was a 50% stake in the US\$100 million Seoul City Tower in Hangang-ro. Completed at the end of 2001, the project is now almost fully leased. The second is a 50% stake in the US\$40 million MyeongDong Central in MyeongDong I-ga, which was completed in March 2002. Leasing for the latter project is progressing well.

Hotels The performance of our hotels reflects the continuance of the weakened market conditions which sharply deteriorated following 9/11 and affected what is traditionally our most profitable period, with the most pronounced effect on our U.S. and London hotels. The Asian operations were less impacted. Australian and New Zealand hotels performed well and reported slightly higher earnings.

The impact of 9/11, together with the higher depreciation charges relating mainly to the refurbishment of the Regal Hotels in the United States to the Millennium standard, resulted in lower contribution from M&C.

There was some concern over the damage sustained to our Millenium Hilton in New York but the structure of the building is certified to be sound. The hotel will remain closed for the foreseeable future. It is fully insured for property damage and loss of business but the quantum of claims has yet to be determined.

Comment on Current Year Prospects

Property While the Singapore economy is improving on the back of the U.S. economic recovery, unemployment remains high due to restructuring and consolidation of operations by companies. Responding to the economic downturn and 9/11, the Government announced a series of measures to stabilise the property market. These include withholding Government land sales, withdrawal of anti-speculation measures for the property market introduced in 1996, and freeing up of the Singapore dollar for the purchase of residential properties and some tax concessions for properties. These measures would have had beneficial effects on the Group's performance but as they were announced in the last quarter of the year, their impact on the year under review was minimal. In addition, the housing loan interest environment is at an all-time low, with banks competing to offer lower mortgage rates.

● *Millennium Biltmore Hotel Los Angeles*

Chairman's Statement

● Goldenhill Villas

The effects of these measures combined with an anticipated economic recovery in the second half of 2002 should contribute to an improvement in 2002 compared to 2001, particularly for the residential sector. The three residential projects launched by the Group in 2001 should register good profit contribution from 2002. In total, 6,105 units were sold in Singapore in 2001 compared to 4,762 units in 2000. Since the start of 2002, the Group has sold more than 400 units including sales of Phase 2 of Goldenhill Park Condominium and Phase 2 of Changi Rise Condominium. All these sales indicate that the market is on the road to recovery.

The Group continued to replenish its land bank selectively with the strategic purchase of two parcels of land. The first was a freehold site in Robertson Quay for \$78 million and the second was a successful tender for a site for an Executive Condominium development in Pasir Ris for \$51 million. Both projects are expected to be profitable.

Additional projects to be launched in 2002, which are in the more popular mid-and low-market segments, include:

- Goldenhill Villas (83 freehold landed housing units in Ang Mo Kio Avenue 1)
- Monterey Park Condominium (280 freehold units in West Coast Rise)
- Upper Changi Road Parcel 2 (648 leasehold units in Upper Changi Road East)
- Pasir Ris Executive Condominium (274 leasehold units in Pasir Ris Drive 4)
- Robertson Quay (201 freehold residential apartments and 13 shops/restaurants off Mohamed Sultan Road)

Critical to the pace of market recovery are how industry players bid for the land parcels in the Reserve List, the prevailing policy on the reserve pricing, and new property-related initiatives to be introduced by the Government in restructuring the Singapore economy. Equally important factors are world political stability and sustained global economic recovery.

● Capital and rental values of Central Mall should improve after the completion of the MRT North East line

The office sector appears to have begun to stabilise in tandem with the economic recovery and in view of the limited new supply in the next three years. The completion of the MRT North East line at the end of 2002 is expected to improve rental yields and capital values for retail outlets in Chinatown Point and in Central Mall.

Seoul City Tower is virtually fully leased and the yield from this investment is approximately 11%. MyeongDong Central, when fully completed and leased, is expected to yield more than 10% as well.

Hotels Having undertaken significant rationalisation measures following 9/11, and having completed the bulk of the conversion of the Regal Hotels in the United States to the Millennium standard, we enter 2002 with a lower cost base. We are confident that the quality of the Group's assets and management experience shall position it to compete effectively both in the current climate and for the future.

Meanwhile we are seeing significantly improved occupancy in New York and some improvement in London, although rates in both markets have yet to recover fully. Likewise, in Asia and Australia/New Zealand, we have already seen signs of recovery.

As 2002 unfolds with political uncertainty in certain countries, it remains difficult to predict the pace of economic recovery. However, we are encouraged by the start to the year and we are confident that the Group's performance in the hotel sector in 2002 will be ahead of 2001.

We maintain our positive view of the global hotels market as a sector that offers substantial upside and continue to look for further suitable growth opportunities by securing more hotel management contracts from third parties.

City e-Solutions Following the collapse of Internet-related businesses, we conducted a thorough review of this restructured subsidiary in late 2001 to realign our business to the new market conditions. We have scaled back on business development plans except for management and reservations distribution, and will review our strategy going forward.

Barring any unforeseen circumstances, the Group is expected to perform much better in 2002.

On behalf of the Board, I would like to thank our shareholders, customers, tenants and all our business associates for their continuing support. I would also like to express our sincere appreciation to the Management and staff for their hard work and dedication throughout this very difficult year.

董事主席报告

本人谨代表董事部欣然呈报城市发展有限公司集团截至2001年12月31日的业绩报告。

本公司及其主要子公司的营业回顾

截至2001年12月31日，本集团是年的营业额共取得22亿元(2000年为26亿元)，而税前盈利为1亿3,890万元(2000年为5亿4,620万元)。可发予股东的税后盈利为4,160万元(2000年为2亿8,670万元)。盈利的减少大半是由于来自产业与旅店业营运的较少贡献以及联营公司的较少盈利分享所致。至于来自产业营运较少贡献的原因，则是因为较少工程于是年完成与出售以及对销售与租赁产业所拨存的1亿100万元储备金。这些在疲弱的经济加上一些发展商的过度削价情况下的拨存是有必要的。由于全球经济衰退以及九一一事件的影响，来自旅店业的营业利润亦显著地减少。

有异于所有其他新加坡挂牌产业公司不将其租赁产业加以折旧的政策，本集团继续采取将所有此类产业加以折旧的保守会计政策。因此导致是年的总折旧帐项为2亿70万元(2000年为1亿9,000万元)。

产业 2001年是一挑战年，当我们在新加坡经济处于严重的消退时发售三项新工程。首先为在2001年3月发售的金岭园，它在市场开始展现活跃的迹象时获得健全的购买率。可是当一些发展商削价求售时，我们随后的销售成绩就受到影响。我们的第二项于七月发售的工程为樟宜苑。它原取得更为健全的反应直到一些发展商于九一一余波后再次激烈地削价时为止。

在这两种情况下，我们皆无参与削价战。我们的决策乃欲保护我们较早进场的购屋者的投资价值而不屑屈服于极度的价格调整。此作法既与我们的购屋者建立亲善关系，又因此避免不必要地破坏股东们的利益。此证明是一项有先见之明的策略。金岭园于2002年1月在没有任何减价的情况下再次发售而樟宜苑则以甚至高过初期的价格再次于一个月后重新发售。对此重新发售的健全接受率证明我们保持冷静与不作出过度反应的策略是正确的。此观点在我们的第三发展项目——绿雅园执行共管公寓于11月的一星期内售罄而再次获得肯定。此工程显著地将市场情绪扭转过来且开展购买兴趣。

虽然本集团成功地发售此三项工程，实际上所有来自此三项工程的收入将从2002年与其后的年度里纳入款项。对此三项工程不需要有所拨存。

在被检讨的年度里，商业产业方面亦受到非常大的考验。在新加坡租金率平均下降16-17%。由于经济衰退，导致一些公司关闭，缩小营业或分租其办公室；一些屋主采取租金战，竞相填补空位。然而，此措施却因市场有限的新办公单位供应而被缓和下来，因此租用率仅下降0.9%，尽管在此艰难的处境下，本集团的租金收益取得5%的增长。

在零售业方面，由于本集团的郊外商业中心取得健全的租用与租金率而相当地稳定。

本集团在南韩汉城投资两项总值7千万美元的工程。第一项为位于汉江路，于1亿美元中拥有50%股权的汉城大厦(Seoul City Tower)。在2001年底完工后，此工程现已几乎全部被租用。第二项为位于明洞区而即将于2002年三月完工，在4000万美元的投资中拥有50%股权的明洞中心(MyeongDong Central)。后项工程的招租活动正在顺利地进展中。

旅店业 我们的旅店业表现反映了疲弱的市场情况在九一一事件后继续尖锐地退化而影响了我们通常最有赚益的时期。这尤其对我们美国与伦敦旅店的影响最为显著。在亚洲的营业则较少受到波及。澳洲与纽西兰旅店的表现良好而呈报稍微较高的赚益。

九一一的冲击加上由于装配美国 Regal Hotels 以臻 Millennium 等级的较高折旧帐目，导致 M & C 的贡献稍低。对纽约 Millennium Hilton 所遭受的折损有所挂虑，但其建筑结构被证实是健全的。此旅店在可预见的将来将继续关闭。它持有对产业毁坏以及业务损失的充分保险，但其赔偿数量尚未定夺。

前景展望

产业 虽然新加坡的经济在美国经济复苏之后而有所改进时，失业率却由于公司营业的重组与巩固而继续高涨。回应经济下降以及九一一事件的影响，政府宣布一系列稳定产业市场的措施。这些包括冻结政府地皮出售，撤销实行自1996年的产业市场克制投机买卖措施以及放宽新元购买住宅产业的条例，以及一些对于产业的税务优惠。这些措施应对本集团的业绩给予有利的影响，但因其乃宣布于是年的末季，所以对本检讨年度的冲击是微不足道的。更何况屋业贷款利息市场在各银行竞相提供较低抵押利率下处于空前的低落。

这些措施的效应，加上可预见的2002年下半年的经济复苏，将会促使2002年比2001年有所改善，尤其对于住宅产业方面。本集团于2001年出售的三项住宅产业，应于2002年取得良好的盈利贡献。2001年在新加坡总共售出6,105单位而2000年则有4,762单位。2002年伊始，本集团已售出包括金岭园第二期与樟宜苑第二期的超过400单位。所有这些销售标志着市场正在复苏的道路上。

本集团继续有选择性地补充其土地储存库而有策略的购买两块地皮。第一块为位于罗拔申码头的7,800万元永久地契地段而第二块乃以5,100万元成功标到位于巴西立的执行共管公寓地盘。这两项工程预计将是有利可图的。

另外将于2002年发售而属于较脍炙人口的中下市场阶层的工程包括：

- 金岭别墅(位于宏茂桥一道的83永久地契有地住宅单位)
- 愉林园(位于西海岸的280永久地契共管公寓单位)
- 樟宜路上段第二地盘(位于樟宜路上段东的648租约地契单位)
- 巴西立执行共管公寓(位于巴西立四通道的274租约地契单位)
- 罗拔申码头(位于摩哈默苏丹路邻近的201永久地契住宅公寓与13商店/餐馆)

市场复苏步伐的关键是在于产业参与者如何参加投标保留地段，对最低价格的通行政策以及在重组新加坡的经济下，政府所将推介的有关产业方面的新创意；同样重要的是世界政治的稳定以及持久的环球经济复苏。

办公楼方面显示已经跟随经济的复苏以及由于今后三年内的有限供应而开始稳定下来。当东北地铁线于2002年尾完工后，预计唐城坊与中央广场的零售单位租金收入以及资本价值将有所增进。

汉城大厦已实际上全部租出而其投资收益约有11%。明洞中心预计当全部完工与出租后，亦将可取得超过10%的收益。

旅店业 随着于九一一事件后所采取的合理化措施以及对大部份的美国Regal Hotels 完成装配以臻至Millennium 等级后，我们以较低的成本基础迈入2002年。我们深信以本集团的资产质量与管理经验，将扎实其在当今的形势中以及未来的局面里有效地参与竞争。

于此时，我们正看到纽约的租用率有显著地增进而伦敦则有些进步，虽然其租金率在两市场尚未完全康复。同样地，在亚洲与澳洲/纽西兰，我们已经看到复苏的迹象。

由于2002年于某些国家出现不稳定的局面，现在还是难以预测经济复苏的步伐。无论如何，我们感受一年伊始的鼓舞，因而我们相信本集团2002年于旅店业方面的表现将超过2001年。

我们对环球旅店业市场作为能提供大幅度增长的部份保持乐观的看法，而将继续从第三者取得更多旅店管理合约来寻求更多适当的扩展机会。

城市电子方案 随着网际网络有关商业的崩溃，我们于2001年末对此重组后的子公司进行彻底的检讨，重新把我们的营业归纳入新的市场趋势。除了管理与定位分配网，我们已经缩小营业发展计划，并将不时向前地检讨我们的策略。

除开任何不可预测的情况下，本集团预期2002年将有更优越的表现。

我谨代表董事部对我们的股东，客户，租户以及所有商业伙伴的继续支持致以谢意。我并藉此向管理层以及职员们于此非常艰难年度里的努力工作与奉献表达我们的诚挚谢意。

Operations Review

Creating Value From Experience

• *Queues for booking were formed a fortnight before the launch of Nuovo Executive Condominium*

With the global economy hit by a severe downturn, 2001 was a tough year. Like all businesses, developers operated in a tough environment. CDL, too, was not spared of these difficulties, and saw its mettle put to the test. With its strong track record, expertise, and unwavering commitment to create value for its shareholders and customers, CDL was able to perform well during the period under review and maintained its stronghold in the Singapore property industry.

Superb Quality CDL won top honours at the Building and Construction Authority Awards 2001, bagging Construction Excellence Awards for King's Centre/Grand Copthorne Waterfront and Parc Palais Condominium. Trellis Towers' aesthetically-pleasing design saw the condominium project securing one of the two Best Buildable Design Awards. CDL's landed developments at Nassim Road and the four bungalows at Ridout Road also chalked up strong performance and clinched the Merit Award. CDL received the URA Architectural Heritage Award for its exceptional restoration of a 2-storey Victorian-style bungalow at No. 24 Nassim Road. These awards reaffirm CDL's role as a market leader renowned for outstanding quality and superior design.

Successful Marketing CDL once again surprised industry observers with the successful launches of its developments. All its three major releases – Goldenhill Park Condominium, Changi Rise Condominium and Nuovo Executive Condominium (EC) – were well received. In particular, the Nuovo EC was an overwhelming success with all 297 units sold within a week of its launch in November 2001. This boosted sentiment in the local property market, resulting in numerous launches and re-launches of projects by industry players.

Coupled with CDL's trademark quality finishes and stylish design, another big draw of Nuovo EC is its location. Only a few minutes walk from the Yio Chu Kang MRT station and Bus Interchange, it is in the proximity of attractive amenities and schools within the popular Ang Mo Kio New Town.

• *Nuovo Executive Condominium*

Nuovo EC is CDL's second executive condominium project, following The Florida, which was successfully launched during the economic crisis of 1998. Its success exemplifies CDL's ability to anticipate fast-changing market trends to develop products and services that appeal to customers, and differentiate the CDL brand from others.

Gearing Up for New Challenges

- *State-of-the-art Call Centre for quick and easy access to sales information*

Making the most of the challenging times, CDL embarked on a number of new initiatives to create greater value for its customers and shareholders. These include customer-centric programmes and new IT initiatives for better organisational management.

Stronger Ties with Customers Maintaining leadership in today's competitive market is not just about centering on traditional product-focused strategies but also understanding our customers' concerns. Committed to delivering quality customer service, CDL opened an integrated Customer and Call Centre, a pioneering customer-centric initiative to set new service standards in the property industry. It is based on the Customer Relationship Management (CRM) business model widely used in the financial and service sectors. Located in CDL's operational headquarters and supported by a sophisticated IT system, this convenient one-stop service and information hub is dedicated to offering customers a new level of satisfaction with prompt and efficient service. A CRM team was also formed to ensure that all queries and complaints are handled professionally while maintaining the personal touch in the customer's experience. CDL also organised various programmes, including the T.O.P. Home Fair, as part of the group's continuing efforts to forge strong and lasting relationships with its customers.

Higher Efficiency and Productivity A comprehensive IT system has been introduced to improve operational efficiency and productivity. The applications implemented include Finance, Property Sales, Leasing, Projects System, Service Quality Management, Purchasing, Human Resource, Payroll and the Customer Relationship Management system. Based on the SAP (Systems, Applications and Products in data processing) software, the new system integrates the various functions, providing on-line real time information to facilitate efficient transaction processing and better decision making. The new system also provides a robust IT infrastructure that is able to grow to meet the future needs of CDL.

Finding New Opportunities Abroad

- *Seoul City Tower's value added features proved appealing among tenants*

The Group's strategy to broaden its earnings base has proven successful with its venture into the vibrant office market in Seoul, Korea. Attesting to CDL's strong marketing approach, its prime office building, Seoul City Tower (SCT), which offers some 465,000 square feet of gross rentable office space, shops and eateries, is almost fully leased. SCT, with its modern and IT-friendly design and facilities, caters to the office needs of Korean companies and leading multi-national corporations. Major tenants include Cigna Group Insurance, Prudential Insurance, Korea Train Express, Kukje Fire & Marine Insurance and Presidential Anti-Corruption Commission.

The recently completed 23-storey prime office building is located in the Central Business District of Namdaemunno, Chung-gu. SCT's value is further enhanced by its convenient location – especially its proximity to the five-star Seoul Hilton Hotel which also belongs to the CDL Group, and the underground tunnel which links the building directly to the Seoul Station.

Operations Review

• M&C awarded contract to manage Millennium Hotel Abu Dhabi

CDL has also secured new revenue streams via its hotel operations. After attaining a critical mass through acquisitions, substantial refurbishment in the newly acquired hotels and establishing a pool of management talent, the company embarked on a mission to secure management contracts to fast track its growth and enhance its position as a global hospitality player.

Backed by its good reputation in the industry, both as hotel owner and manager, CDL, through its hotel subsidiary, Millennium & Copthorne Hotels (M&C), was contracted to manage the Royal Palm Resort in the Galapagos Islands off Ecuador. Recent long-term contracts awarded to M&C include two five-star properties in Marrakech and Agadir in Morocco, and two other five-star hotels in the United Arab Emirates – Millennium Hotel Abu Dhabi, which opened in March 2002 and Millennium Hotel Sharjah, to be opened in end-2002.

Caring for the Community

As a caring corporate citizen, CDL is committed to creating a better place for all. The company's involvement covers a host of programmes that support community well-being, the arts, education, sports and youth development as well as environmental protection.

• Singapore Real Estate Charity Bowl 2001 graced by Minister Mah Bow Tan (third from right) and national bowlers raised over \$300,000

CDL expanded the scale of its annual fund-raising bowling tournaments and initiated the Singapore Real Estate Charity Bowl 2001. Co-organised with fellow developer, Far East Organization, it was the first industry-wide fund-raising bowling event involving real estate players and related businesses in Singapore. About 100 corporations took part in this event which raised \$200,000 for the Assisi Home & Hospice and Assisi Children's Centre and \$100,000 for the Breast Cancer Foundation.

CDL was the major sponsor of the annual National Kidney Foundation Charity Drive for the seventh consecutive year. Its freehold Goldenhill Park Condominium was offered as the top prize for the Telepoll call-in and SMS Donation lucky draw.

Through City Sunshine Club, a staff volunteer programme, CDL commits its people and resources to help the poor and the less privileged in society. The Club organised social and recreational activities for the young and old from various charities, as well as participated in fund-raising carnivals for the disabled.

In recognition of its contribution to the vibrant arts scene in Singapore, CDL was once again conferred the National Arts Council's "Friend of the Arts" award. It was the sponsor and venue host for arts events during the Singapore Arts Festival.

• Children from Chen Su Lan Methodist Home at the Moscow Circus

CDL produced its Nature Series-Volume 4 corporate calendar to be a daily reminder to conserve the environment for future generations. CDL also sponsored an international environmental photography competition and hosted an exhibition to further increase awareness of environmental issues.

In support of youth development and education, CDL and the Building and Construction Authority jointly set up two scholarships for tertiary students pursuing construction industry-related degree courses.

THE BOARD OF DIRECTORS

Presently, the Board comprises 11 members of whom 2 are executive directors. Of the remaining 9 non-executive directors, the Board considers not less than one third thereof to be independent. The independent directors are Messrs Chee Keng Soon, Foo See Juan and Tang See Chim.

The Board meets at least 4 times a year to review and decide on issues of strategy, performance, resources, including key appointments, and standards of conduct. The Board met 4 times in 2001.

Apart from its statutory responsibilities, the Board approves the strategic plans, key operational issues, investments and loans, reviews the financial performance of the Group and evaluates the performance and compensation of senior management.

To assist in the execution of its responsibilities, the Board has established Committees which operate within defined terms of reference such as the Audit Committee, the Nominations Committee, the Board Committee and the Share Option Scheme Committee. Management functions have been delegated to the executive directors.

The delegation of authority by the Board to its Committees and to its executive directors enables the Board to achieve operational efficiency by empowering these Committees and its executive directors to decide on matters within certain limits of authority and yet maintain control over major policies and decisions.

(a) The Audit Committee

4 non-executive directors, the majority of whom is considered to be independent, form the Audit Committee. The Audit Committee met 6 times in 2001.

The Audit Committee's principal responsibility is to assist the Board in raising and maintaining a high standard of corporate governance and in so doing, performs the following duties :

- reviews the financial statements of the Company and the consolidated financial statements of the Group to ensure their completeness, accuracy and fairness before they are approved by the Board, and the auditors' report thereon.
- monitors management's strategy for ensuring that appropriate controls are in place and that these controls are functioning properly. This process entails the review of the scope of work of the internal and external auditors, and the receipt and consideration of their reports thereon.
- reviews the effectiveness of the financial reporting process and the internal controls system.
- recommends the appointment of the external auditors and reviews the level of audit fees.
- ensures compliance with applicable laws and regulations, particularly the Companies Act, Chapter 50 and the Listing Manual of the SGX-ST, as well as policies, procedures and practices established by management.

Corporate Governance

- reviews compliance with the guidelines adopted by the Board on corporate governance processes and activities.
- reviews Interested Person Transactions pursuant to the Listing Manual.
- reviews and approves sales of property to interested persons, directors, relatives and employees pursuant to the Listing Manual.

During the financial year ended 31 December 2001, the aggregate value of interested person transactions reviewed by the Audit Committee which are property-related amounted to \$2,908,430.66.

(b) The Nominations Committee

The Nominations Committee, which comprises 3 Board members, ensures a formal and transparent procedure for the appointment and re-appointment of directors to the Board. Its responsibilities also include nominating candidates to fill the most senior executive positions including that of chief executive, and proposing the responsibilities of the non-executive directors as well as the membership and chairmanship of Committees.

(c) The Board Committee

The Board Committee comprises 6 Board members with authority to approve routine and other operational matters of the Company.

(d) The City Developments Share Option Scheme Committee (the "Share Option Scheme Committee")

The Share Option Scheme Committee which comprises 3 Board Members, was set up to administer the City Developments Share Option Scheme 2001, with such powers and duties as are conferred on it by the Board.

BUSINESS AND ETHICAL CONDUCT

The Company has an Internal Code of Business and Ethical Conduct crystallising the Company's business principles and practices with respect to matters which may have ethical implications. The Code provides a communicable and understandable framework for staff to observe the Company's principles in their conduct of the Company's business.

DEALINGS IN SECURITIES

In line with the guidelines issued by the SGX-ST on Dealings in Securities, the Company has adopted an Internal Code on Dealings in Securities which provides guidance and prescribes the internal regulations with regard to dealings in the Company's securities by its officers.

FINANCIAL REPORTING AND INTERNAL CONTROL

The directors recognise that they have the overall responsibility for ensuring accurate financial reporting for the Group and the establishment of a sound system of internal controls for the Group. The Board with the assistance of the Audit Committee, reviews the effectiveness of the Group's financial reporting and system of internal controls, which is monitored through a programme of internal audits.

While no system can be perfect, the Group's internal financial controls are designed to provide reasonable assurance that assets are safeguarded, that proper accounting records are maintained, and that financial information used within the business and for publication is reliable. In designing these controls, the directors have had regard to the risks to which the business is exposed, the likelihood of such risks occurring and the cost of protecting against them.

* The Rules of the Millennium & Copthorne Hotels Sharesave Scheme (the "Sharesave Scheme") allow option holders to suspend up to six monthly payments under their savings contract, in which case the completion of the savings contract is delayed until the contracted payments are made in full. The effect of this rule resulted in the reported balance of options outstanding at the end of the year in respect of the Sharesave Scheme. Subsequent to the year end this balance has been eliminated in accordance with the Rules of the Sharesave Scheme.

The options granted by the subsidiary do not entitle the holders of the options, by virtue of such holding, to any rights to participate in any share issue of any other company.

Notes to the Financial Statements

31 December 2001

These notes form an integral part of the financial statements.

1. Domicile and Principal Activities

City Developments Limited (the "Company") is incorporated in the Republic of Singapore with its registered office at 36 Robinson Road, #04-01, City House, Singapore 068877.

The principal activities of the Company are those of a property developer and owner, investment holding and a hotel owner.

The principal activities of the subsidiaries are those of property developers and owners, club operator, investment in properties and in shares, property management, project management and consultancy services, hotel owners and operators, and providers of information technology and procurement services.

The consolidated financial statements for the year ended 31 December 2001 relate to the Company and its subsidiaries (referred to as the "Group") and the Group's interests in associated companies and jointly controlled entities.

2. Summary of Significant Accounting Policies

(i) Statement of Compliance

The financial statements have been prepared in accordance with Singapore Statements of Accounting Standard ("SAS") (including Interpretations of Statements of Accounting Standard) issued by the Institute of Certified Public Accountants of Singapore and the applicable disclosure requirements of the Singapore Companies Act, Chapter 50.

(ii) Basis of Preparation

The financial statements, expressed in Singapore dollars, are prepared on the historical cost basis.

In 2001, the Group and the Company changed their accounting policies as a result of adopting nine new or revised accounting standards which became effective for the financial statements for 2001. The benchmark treatment set out in SAS 8 (revised 2000) – *Net Profit or Loss for the Period, Fundamental Errors and Changes in Accounting Policies* of applying the changes retrospectively by adjusting the opening balances of the retained profits of the prior and current years has been adopted, unless such treatment is prohibited or modified by the specific transitional provisions set out in the respective standards being adopted. Details of the effects of adopting the standards are set out in note 37.

2. Summary of Significant Accounting Policies (cont'd)

(iii) Basis of Consolidation

(a) Subsidiaries

Subsidiaries are those companies controlled by the Company. Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of a company so as to obtain benefits from its activities.

The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

Assets and liabilities of foreign subsidiaries are translated into Singapore dollars at the rates of exchange ruling at the balance sheet date while the results are translated into Singapore dollars at the average exchange rates for the year. Goodwill and fair value adjustments arising from the acquisition of foreign subsidiaries are translated into Singapore dollars at the rates of exchange prevailing at the date of transaction. Translation differences arising therefrom are taken directly to exchange fluctuation reserve.

Fair values are assigned to the assets, principally properties, owned by subsidiaries at the date of acquisition as determined by the directors based on independent professional valuers. As the fair values assigned to the assets are principally represented by the costs incurred by the Group in acquiring these subsidiaries, which owned these properties, these fair values are accordingly reported as costs in the consolidated financial statements.

Exchange differences arising from the translation of inter-company balances which represent an extension of interests of the holding company in the subsidiaries are taken to the exchange fluctuation reserve.

(b) Associated Companies and Jointly Controlled Entities

Associated companies are companies in which the Group has significant influence, but not control, over the financial and operating policies.

Jointly controlled entities are those enterprises over whose activities the Group has joint control, established by contractual agreement.

The consolidated financial statements include the Group's share of the total recognised gains and losses of associated companies and jointly controlled entities on an equity accounted basis, from the date that significant influence or joint control commences until the date that significant influence or joint control ceases. When the Group's share of losses exceeds the carrying amount of the associated company or jointly controlled entity, the carrying amount is reduced to zero and recognition of further losses is discontinued except to the extent that the Group has incurred obligations in respect of the associated company or jointly controlled entity.

The Group's share of the post-acquisition results of the associated companies or jointly controlled entities are included in the consolidated profit and loss account using either the most recent available audited financial statements or the unaudited financial statements of the associated companies or jointly controlled entities. Any difference between the unaudited financial statements and the audited financial statements obtained subsequently are adjusted for in the following financial year.

2. Summary of Significant Accounting Policies (cont'd)

(iii) Basis of Consolidation (cont'd)

(c) Transactions Eliminated on Consolidation

All significant intra-group transactions, balances and unrealised gains are eliminated on consolidation. Unrealised gains resulting from transactions with associated companies and jointly controlled entities are eliminated to the extent of the Group's interest in the enterprise. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

(d) Disposals

On disposal of a subsidiary, an associated company or a jointly controlled entity, any attributable amount of purchased goodwill not previously amortised through the profit and loss account or which has previously been dealt with as a movement in the Group's reserves is included in the calculation of the profit or loss on disposal.

(iv) Property, Plant and Equipment

(a) Owned Assets

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses.

(b) Subsequent Expenditure

Subsequent expenditure relating to property, plant and equipment that has already been recognised is added to the carrying amount of the asset when it is probable that future economic benefits, in excess of the originally assessed standard of performance of the existing asset, will flow to the Group. All other subsequent expenditure is recognised as an expense in the period in which it is incurred.

For chinaware, glassware, linen, kitchen and bar utensils, subsequent replacements are charged to the profit and loss account.

(c) Disposals

Gains or losses arising from the retirement or disposal of property, plant and equipment are determined as the difference between the estimated net disposal proceeds and the carrying amount of the asset and are recognised in the profit and loss account on the date of retirement or disposal.

(d) Leased Assets

Leases in terms of which the Group assumes substantially all risks and rewards of ownership are classified as finance leases. Property, plant and equipment acquired by way of finance leases is capitalised at an amount equal to the lower of its fair value and the present value of the minimum lease payments at the inception of the lease, less accumulated depreciation and impairment losses. Capitalised leased assets are depreciated over the shorter of the economic useful life of the asset and the lease term.

Notes to the Financial Statements

2. Summary of Significant Accounting Policies (cont'd)

(iv) Property, Plant and Equipment (cont'd)

(e) Depreciation

No depreciation is provided on freehold and 999-year leasehold land and chinaware, glassware, linen and utensils. For freehold properties under development, construction and renovations-in-progress, no depreciation is provided until these items are completed.

Depreciation is provided on a straight-line basis so as to write off their costs over their estimated useful lives as follows:

Building core	- 50 years, or lease term subject to a maximum of 50 years
Building surface, finishes and services	- 30 years, or lease term subject to a maximum of 30 years
Freehold and leasehold properties	- 50 years, or lease term subject to a maximum of 50 years
Furniture, fittings, plant and equipment and improvements	- 3 to 20 years
Motor vehicles	- 4 to 5 years

(v) Intangible Assets

(a) Goodwill

Goodwill arising on acquisition represents the excess of the cost of acquisition over the fair value of the Group's share of the identifiable net assets acquired. Goodwill is stated at cost less accumulated amortisation and impairment losses. In respect of associated companies and jointly controlled entities, the carrying amount of goodwill is included in the carrying amount of the investment in the associated companies or jointly controlled entities. Goodwill is amortised from the date of initial recognition over its estimated useful life of not more than 20 years.

(b) Negative Goodwill

Negative goodwill arising on acquisition represents the excess of the fair value of the identifiable net assets acquired over the cost of acquisition.

To the extent that negative goodwill relates to an expectation of future losses and expenses that are identified in the plan of acquisition and can be measured reliably, but which have not yet been recognised, it is recognised in the profit and loss account when the future losses and expenses are recognised. Any remaining negative goodwill, but not exceeding the fair values of the non-monetary assets acquired, is recognised in the profit and loss account over the weighted average useful life of those assets that are depreciable or amortisable. Negative goodwill in excess of the fair values of the non-monetary assets acquired is recognised immediately in the profit and loss account.

In respect of associated companies and jointly controlled entities, the carrying amount of negative goodwill is included in the carrying amount of the investment in the associated company or jointly controlled entity. The carrying amount of any other negative goodwill is deducted from the carrying amount of intangible assets.

2. Summary of Significant Accounting Policies (cont'd)

(v) *Intangible Assets (cont'd)*

(c) *Other Intangible Assets*

Other intangible assets are stated at cost less accumulated amortisation and impairment losses.

(d) *Subsequent Expenditure*

Subsequent expenditure on capitalised intangible assets is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is expensed when incurred.

(e) *Amortisation*

Amortisation is charged to the profit and loss account on a straight-line basis over the estimated useful lives of intangible assets. Goodwill is amortised from the date of initial recognition over a period of not more than 20 years.

(vi) *Subsidiaries*

Investments in subsidiaries in the Company's balance sheet are stated at cost less impairment losses.

(vii) *Associated Companies and Jointly Controlled Entities*

Investments in associated companies and jointly controlled entities are stated at cost less impairment losses.

The results of the jointly controlled entities are included in the Company's profit and loss account to the extent of dividends received and receivable, provided the Company's right to receive the dividend is established before the balance sheet date.

(viii) *Financial Assets*

Debt and equity securities held for the long-term are stated at cost less allowance for diminution in value which, in the opinion of the directors, are other than temporary.

Debt and equity securities held for the short-term are stated at market value, on an item-by-item basis. Any increases or decreases in carrying amount are included in the profit and loss account.

Profits or losses on disposal of financial assets are determined as the difference between the net disposal proceeds and the carrying amount of the financial assets and are accounted for in the profit and loss account when they arise.

Notes to the Financial Statements

2. Summary of Significant Accounting Policies (cont'd)

(ix) *Deferred Financial Charges*

Deferred financial charges comprise:

- discount and related expenses associated with the issue of notes and bonds, which are amortised over the repayment period.
- expenses incurred in obtaining bank facilities, which are amortised over the period for which the facility is granted.

(x) *Development Properties*

Development properties are stated at the lower of cost plus, where appropriate, a portion of attributable profit, and estimated net realisable value, net of progress billing. Cost of development properties includes interest and other related expenditure which are capitalised as and when activities that are necessary to get the assets ready for their intended use are in progress.

Joint development properties are properties which are jointly developed by the Company together with related corporations and/or other parties. These developments are either managed by the Company or the other participants. Where the developments are managed by the Company, the interests of the other participants in the joint development properties are stated net of contributions from the other participants. Joint development properties managed by other parties are stated at the Company's share of attributable profit less surplus funds received or receivable from the developments.

Borrowing costs that are directly attributable to acquisition and construction are capitalised as part of construction and renovation-in-progress and property under development, commencing from the time these costs are being incurred until the completion of development.

(xi) *Consumable Stocks*

Consumable stocks comprise principally food and beverage and other hotel related consumable stocks. Stocks are valued at the lower of cost and net realisable value. Cost is determined on a first-in, first-out basis.

(xii) *Trade and Other Receivables*

Trade and other receivables are stated at cost less allowance for doubtful receivables.

(xiii) *Cash and Cash Equivalents*

Cash and cash equivalents comprise cash at banks and in hand and fixed deposits. For the purpose of the consolidated statement of cash flows, cash and cash equivalents are presented net of bank overdrafts which are repayable on demand and which form an integral part of the Group's cash management.

Notes to the Financial Statements

2. Summary of Significant Accounting Policies (cont'd)

(xiv) Impairment

The carrying amounts of the Group's assets, other than inventories and properties in the course of development, are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated.

An impairment loss is recognised whenever the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. Impairment losses are recognised in the profit and loss account.

(a) Calculation of Recoverable Amount

The recoverable amount is the greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

(b) Reversal of Impairment Loss

An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised. Reversals of impairment are recognised in the profit and loss account.

An impairment loss in respect of goodwill is not reversed unless the loss was caused by a specific external event of an exceptional nature that is not expected to recur, and the increase in recoverable amount relates clearly to the reversal of the effect of that specific event.

(xv) Trade and Other Payables

Trade and other payables are stated at cost.

(xvi) Interest-Bearing Loans and Other Borrowings

Interest-bearing loans and other borrowings are stated at cost.

(xvii) Finance Leases

A finance lease is one which is non-cancellable and the lease term of which is for the major part of the useful life of the leased asset or where the present value of the minimum lease payments (including residual value) represents a substantial portion of the fair value of the leased asset. The amount capitalised is equal to the fair value of the leased asset at the inception of the lease.

Assets acquired under finance leases are depreciated on the straight-line basis over their estimated useful lives as set out in note 2(iv)(e) above. The finance charge is taken to the profit and loss account when incurred.

Notes to the Financial Statements

31 December 2001

2. Summary of Significant Accounting Policies (cont'd)

(xviii) Bonds Issued at a Discount

The difference between the face value of bonds issued by the Group and the proceeds received is recorded as a discount on the bonds.

Discounts on bonds together with related expenses of the issue of bonds are amortised over their repayment periods.

(xix) Employee Benefits

(a) Defined Contribution Plans

Contributions to defined contribution plans are recognised as an expense in the profit and loss account as incurred.

(b) Defined Benefit Plans

The Group's net obligation in respect of defined benefit plans is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods. The calculation is performed by a qualified actuary every three years using the projected unit credit method; in the intervening years, the calculation is updated based on information received from the actuary.

When the benefits of a plan change, the portion of the increased benefit relating to past service by employees is recognised as an expense in the profit and loss account on a straight-line basis over the average period until the benefits become vested. To the extent that the benefits vest immediately, the expense is recognised immediately in the profit and loss account.

In calculating the Group's obligation in respect of a plan, any actuarial gain or loss is recognised in the profit and loss account immediately.

Where the calculation results in a benefit to the Group, the recognised asset is limited to the net total of past service costs and the present value of any future refunds from the plan or reductions in future contributions to the plan.

(c) Short-term Compensated Absences

Short-term compensated absences are recognised when the employees render services that increase their entitlement to future compensated absences.

Notes to the Financial Statements

31 December 2001

2. Summary of Significant Accounting Policies (cont'd)

(xx) Provisions

A provision is recognised in the balance sheet when the Group has a legal or constructive obligation as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

A provision for onerous contracts is recognised when the expected benefits to be derived by the Group from a contract are lower than the unavoidable cost of meeting its obligations under the contract.

(xxi) Dividends

Dividends on ordinary shares are recognised as a liability in the period in which they are declared.

(xxii) Related Parties

For the purposes of these financial statements, parties are considered to be related to the Group if the Group has the ability, directly or indirectly, to control the party or exercise significant influence over the party in making financial and operating decisions, or vice versa, or where the Group and the party are subject to common control or common significant influence. Related parties may be individuals or other entities.

(xxiii) Revenue Recognition

(a) Sale of Properties

The Group recognises profits on property development projects using the percentage of completion method. The percentage of completion is measured by reference to the percentage of costs incurred to date to the estimated total costs for each contract. Profits are recognised only in respect of finalised sales agreements and to the extent that such profits relate to the progress of the construction work.

(b) Rental and Interest Income

Rental and interest income are recognised on an accrual basis.

(c) Hotel Income

Revenue from hotel operations is recognised on an accrual basis, upon rendering of the relevant services.

(d) Dividends

Dividend income is recognised in the profit and loss account when the shareholder's right to receive payment is established.

Notes to the Financial Statements

31 December 2001

2. Summary of Significant Accounting Policies (cont'd)

(xxiv) Finance Costs

Interest expense are expensed in the profit and loss account in the period in which they are incurred, except to the extent that they are capitalised as being directly attributable to the acquisition, construction or production of an asset which necessarily takes a substantial period of time to prepare for its intended use or sale.

(xxv) Foreign Currencies

Monetary assets and liabilities in foreign currencies except for foreign currency liabilities hedged by forward exchange contracts, are translated into Singapore dollars at rates of exchange approximate those ruling at the balance sheet date. Foreign currency assets and liabilities hedged by forward exchange contracts are translated at the contracted foreign exchange rates. Transactions in foreign currencies are translated at rates ruling on transaction dates.

Where foreign currency loans provide an effective hedge against the net investment in foreign subsidiaries, associated companies and jointly controlled entities, exchange differences arising on the loans are recognised directly in equity until disposal of the investments.

Where monetary items in substance form part of the Group's net investment in the foreign subsidiaries, associated companies and jointly controlled entities, exchange differences arising on such monetary items are recognised directly in equity until disposal of the investments.

Other translation differences are included in the profit and loss account.

(xxvi) Segment Reporting

A segment is a distinguishable component of the Group that is engaged either in providing products or services (business segment), or in providing products or services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments.

Segment information is presented in respect of the Group's business and geographical segments. The primary format, business segments, is based on the Group's management and internal reporting structure.

Segment results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis.

The Group comprises three principal business segments, namely hotel operations, property development and rental of properties. These segments operate in three principal geographical areas, namely, East and South East Asia, North America and Europe, and Australia and New Zealand.

In presenting information on the basis of geographical segments, segment revenue is based on the geographical location where the services are rendered and the products are sold. Segment assets are based on the geographical location of the assets.

(xxvii) Deferred Taxation

Deferred taxation is provided using the liability method in respect of the taxation effects arising from all material timing differences between the accounting and tax treatment of income and expenditure, which are expected with reasonable probability to crystallise in the foreseeable future. A deferred tax benefit, however, is not recognised in the financial statements unless there is a reasonable expectation of realisation.

In addition, where fair value adjustments are recorded by the Group when acquiring subsidiaries, a deferred tax liability or asset is provided to account for the potential tax liability at the date of acquisition.

The Company

The tax charge for the year is higher than that arrived at by applying the standard rate of tax of 24.5% (2000: 25.5%) to the profit for the year principally due to certain expenses being disallowed for tax purposes.

The Group

The tax charge for the Group differs from that arrived at by applying the standard rate of tax of 24.5% (2000: 25.5%) to the profit for the year. This is mainly due to:

- (i) certain expenses principally, depreciation on buildings, being disallowed for tax purposes;
- (ii) timing differences in the treatment of certain items for accounting and tax purposes and for which the related deferred tax benefits have not been recognised;
- (iii) losses incurred by some subsidiaries which cannot be offset against profits earned by other companies in the Group. However, these losses are available for set-off against future profits of the subsidiaries subject to the agreement of the relevant tax authorities; and
- (iv) varying statutory tax rates of different countries in which the Group operates.

37. Changes in Accounting Policies

(a) Adoption of new and revised accounting standards

In 2001, the Group and the Company adopted nine new and revised standards in the manner described below:

SAS 8 (revised 2000) – Net Profit or Loss for the Period, Fundamental Errors and Changes in Accounting Policies

The adoption of SAS 8 resulted in the Group and the Company reclassifying extraordinary items to operating items as these items do not meet the recognition criteria set out in the standard. Comparatives have been restated.

SAS 10 (revised 2000) - Events after the Balance Sheet Date

The adoption of SAS 10 resulted in the Group and the Company reversing the liability for proposed final dividends. The new accounting policy is to recognise proposed final dividends only after they have been formally declared payable by shareholders {refer to note 2(xxiii)(d)}. The change has been applied retrospectively by adjusting the opening balances of retained profits at 1 January 2000 and 2001. Comparatives have been restated.

SAS 17 (2000) – Employee Benefits

The adoption of SAS 17 resulted in the Group and the Company making provisions for the obligations in respect of short-term employee benefits in the form of accumulating compensated balances. These obligations are provided when the employees render services that increase their entitlement to future compensated absences {refer to note 2(xix)(c)}. The new accounting policy has been applied retrospectively by adjusting the opening balances of retained profits at 1 January 2000 and 2001. Comparatives have been restated.

SAS 31 (2000) – Provisions, Contingent Liabilities and Contingent Assets

The adoption of SAS 31 has no impact on the Group's opening balances of retained profits. Comparatives have been restated.

SAS 34 (2000) – Intangible Assets

The adoption of SAS 34 resulted in the Group reversing those intangible assets that do not meet the recognition criteria set out in the standard. The reversal has been accounted for by adjusting the opening balances of retained profits. Comparatives have been restated.

SAS 22 (revised 2000) – Business Combinations

On adoption of SAS 22, the Group changed its accounting policy on the treatment of goodwill and negative goodwill arising on acquisition of business {refer to note 2(v)}. The Group adopted the transitional provision of not restating the goodwill (or negative goodwill) that has previously been written off against retained profits, and will include the attributable goodwill (negative goodwill) in the determination of profit or loss when the businesses are disposed of or discontinued. The result of adopting this transitional provision is that the adoption of SAS 22 has no effect on the comparatives or the opening balances of retained profits.

Other Standards

The adoption of SAS 32 (2000) – *Financial Instruments: Disclosure and Presentation*, SAS 35 (2000) – *Discontinuing Operations* and SAS 36 (2000) – *Impairment of Assets*, did not give rise to any adjustments to the opening balances of retained profits of the prior or current years or to changes in comparatives.

- Republic Hotels & Resorts Limited ("RHR") to divest its 100% interest in its subsidiary, Copthorne Orchid Penang Sdn. Bhd. by 49% to Malaysians within a period of 5 years from November 1989. RHR had, in March 2002, obtained an extension for this divestment to 30 June 2002.
 - ATOS Holding AG to divest its 100% interest in its subsidiary, CDL Hotels (Malaysia) Sdn. Bhd. by 49% to Malaysians by 31 December 2003.

- (iii) Under the terms of the shareholders' agreement entered into between a subsidiary, Harrow Entertainment Pte Ltd ("Harrow"), and the minority shareholder of another subsidiary, City Elite Pte Ltd ("City Elite"), in the event that Harrow's loan to City Elite is repaid in full out of the cash proceeds generated from the operations within 30 months from October 2000, Harrow has an obligation to divest 10% equity interest in City Elite to the minority shareholder, either:
- (i) by selling 10% shareholding at par; or
 - (ii) through the issue of such number of new ordinary shares of \$1 each at par such that the shareholdings of Harrow and the minority shareholder will be in the proportion of 60:40.

Notes to the Financial Statements

31 December 2001

40. Contingent Liabilities (unsecured) (cont'd)

- (a) A claim has been made against a subsidiary in USA, arising from its consultancy advice to a hotel operator in connection with the construction of a hotel in the USA. The claim is in the sum of US\$20 million (approximately \$36.6 million) for loss of profits and a further US\$9 million (approximately \$16.5 million) in damages. The trial in the matter has been indefinitely postponed, but external legal counsel now believes a trial in 2002 is probable.
- (b) The Millenium Hilton, New York was damaged in the terrorist attacks of 11 September 2001 and has remained closed since that date.

The property is fully insured for property damage and in respect of business interruption throughout a period of closure and for a period of 12 months after the hotel re-opens. It is considered that the carrying value of the hotel recorded in the financial statements at 31 December 2001 is supportable, based on this insurance cover in place.

Insurance specialists have been engaged, and are reviewing all aspects of the related claims. Interim payments of US\$10 million (approximately \$18.3 million) were received as at 31 December 2001 and a further US\$5 million (approximately \$9.2 million) has been received in the period since the year end. It is evident that the various aspects of this claim will take time to resolve and it is not anticipated that the hotel will re-open during 2002.

41. Financial Instruments

(a) Financial risk management objectives and policies

Exposure to credit, interest rate and currency risks arise in the normal course of the Group's business activities. The Group's overall objectives and policies focus on managing financial risks by using financial instruments, where appropriate. Use of derivatives are for hedging purposes only against specific exposures and are entered into in a manner consistent with the overall policies of the Group. The Group does not enter into derivative transactions for speculative purposes.

Credit risk

Management has a credit policy in place and the exposure to credit risk is monitored on an ongoing basis. Credit evaluations are performed on all customers requiring credit over a certain amount. The Group does not require collateral in respect of these financial assets.

Transactions involving financial instruments are entered into only with counterparties that are of acceptable credit quality.

At balance sheet date, there were no significant concentrations of credit risk. The maximum exposure to credit risk is represented by the carrying amount of each financial asset in the balance sheet.

Interest rate risk

The Group's exposure to market risk for changes in interest rates relates primarily to its interest-bearing financial assets and debt obligations. The Group adopts a policy of managing its interest rate exposure by maintaining a mix of debt portfolio with both fixed and floating rates of interest. Where appropriate, the Group uses interest rate swaps and other derivative financial instruments to hedge its interest rate exposure for specific underlying debt obligations.

Foreign currency risk

The Group manages its foreign exchange exposure by a policy of matching receipts and payments, asset purchases and borrowings in each individual currency. Forward foreign exchange contracts are used purely as a hedging tool where active market for the relevant currencies exist to minimise the Group's exposure to movements in exchange rates on firm commitments and specific transactions.

Wherever necessary, the Group finances its property, plant and equipment purchases by using the relevant local currency cash resources and arranging for bank facilities denominated in the same currency. This enables the Group to limit translation exposure to its balance sheet arising from consolidation of the Group's overseas net assets.

(b) Fair values

The aggregate net fair values of financial assets and liabilities which are not carried at fair values in the balance sheet as at 31 December 2001 are represented in the following table:

41. Financial Instruments (cont'd)

(b) Fair values (cont'd)

The fair value of non-current quoted securities is their quoted bid price at the balance sheet date. The fair value of non-current unquoted securities are not determined due to lack of information to estimate such fair value and excessive costs may be incurred. For other financial instruments, fair value has been determined by discounting the relevant cash flows using current interest rates for similar instruments at the balance sheet date.

Except as disclosed above, the fair values of other financial assets and liabilities approximate their carrying amounts.

At the end of the financial year, the Group has no significant exposure to unrecognised financial instruments.

- (c) No comparative information is presented for the fair values of financial assets and liabilities because of inability to obtain the required information without incurring excessive costs.
